To evaluate the effectiveness of a new, low-dose erythromycin (EM)-containing Lactobacillus-based root canal treatment in reducing subgingival levels of periodontopathic bacteria and clinical parameters of periodontitis. Eighty-two patients with untreated chronic periodontitis (American College of Periodontology classification system, III and IV) received root canal treatment (n = 52) or root surface debridement and placement of a toothbrush containing the erythromycin-loaded lactobacillus (n = 30). Subgingival plaque samples were obtained from teeth with probing depths \geq 4 mm at baseline and after 12 months. Clinical parameters of periodontitis were recorded at baseline and after 6, 12 and 24 months. Percentage of rods and motile rods was determined and subgingival tissue samples were cultured for Porphyromonas gingivalis. No significant differences in the reduction of P. gingivalis were seen between the two groups. However, the toothbrush group had a significantly lower number of other periodontopathic bacteria after 12 and 24 months. The toothbrush group showed a significantly less deep pocket depth, less bleeding on probing and a lower mobility score at any time point. No

adverse reactions were found. These results demonstrate that the erythromycin-containing root canal treatment may be effective in reducing periodontopathic bacteria in the subgingival biofilm and clinical parameters of periodontitis.Q: What's the best way to get around SQL injection on this page? I've recently learned a bit about SQL injection. Here's the situation I have on the page that I am modifying:

93 I am wondering if there
is any alternative to the
method I am trying to
accomplish? I am also
aware that these are not all
of the 1083 students but
just a small sample to
illustrate how it is sorted
by birthdate. A: Assuming
you have a dataframe like
this: `import pandas as pd`
`df =`

```
pd.DataFrame({'birthdate':  
['2013-01-09',  
'2011-11-11',  
'2015-05-11',  
'1989-01-01',  
'2005-05-25',  
'2011-08-11',  
'1978-01-22',  
'1955-10-04',  
'1988-04-13',  
'2010-03-09',  
'1955-11-22',  
'1974-12-07',
```

'1960-04-01',
'1978-01-02',
'1959-12-08',
'1974-01-04',
'1964-01-01',
'2003-06-05',
'2005-03-05',
'1991-01-31', ba244e880a
